Position:	Min-I Program Analyst – Knowledge Manager
Salary Range:	Commensurate with Experience
Location:	Washington D.C.
Position Status:	Full Time
Clearance:	Secret
Education Level:	Bachelors Degree in Management, Engineering, or related field or three (3) to five (5) years’ experience demonstrating in-depth experience and specialized knowledge in Sharepoint iNAVSEA, NSERC and DOD/Navy data storage platforms
Relevant Work Experience:	4 years minimum
Other Requirements:	US Citizen

Position Description:

The ideal candidate will provide engineering services consisting of engineers, engineering managers, and other technical professionals to support the SEA 05 Integrated Warfare Systems (IWS) Engineering Group in leading/managing warfare systems engineering, and test and evaluation support for the Navy ships and warfare systems.

- Management of Command, Control Communications, Computers, Combat Systems, and Interoperability (C5I) and Command, Control, Communications, Computers, Combat Systems, Intelligence, Surveillance, and Reconnaissance (C5ISR) Systems
- Support of Warfare Systems Engineering (WSE) for Warfare Systems, Interior Communications (IC), Systems Integration, Systems Engineering, Test Engineering (e.g. interoperability), including Automated Tests and Analysis
- Execution of Certification Authority for Naval Warfare Systems
- Integrated Warfare Systems Technical Authority execution
- Management of Navy Navigation Certification and Navy EMI/RADHAZ Certifications

Primary Responsibilities:

- The Knowledge Manager will coordinate the identification of data storage requirements, design and recommend a working data storage design for incorporation with the NSERC to accommodate a minimum of 300 stakeholders’ use. This will include the definition of

data requirements associated with both NAVSEA-05H's Technical and Certification Authorities, as well as across the SEA-05H technical authority enterprise for cataloging, storing of all related Objective Quality Evidence and other data, ensuring that the data and information are readily available to participating stakeholders in the process associated with the execution of these authorities.

Experience Requirements:

- Bachelors Degree in Management, Engineering, or related field; or three (3) to (5) years experience having demonstrated in-depth experience and specialized knowledge in Sharepoint, iNAVSEA, NSERC and other DOD/Navy data storage platforms
- Experience in technical program planning and implementation, budget development and administration of government projects
- Currently hold **SECRET** Security Clearance
- Familiarity with NAVSEA Ship Technical Systems and Engineering Processes

Preferred Skills:

- Strong working knowledge of Microsoft Office Products (Word, PowerPoint, Excel, Outlook, Project)
- The candidate must be a self-starter, and able to work independently with minimal supervision

We Offer:

- Competitive salaries and benefits package
- Medical and dental insurance
- 401K
- Tuition Reimbursement
- Flexible Spending Accounts
- Short and Long Term Disability
- Vacation time
- Advancement Opportunities
- Commuting reimbursement
