### **Position Description:**

Decision Technologies, Inc. is looking for an experienced Systems Engineer with a strong Systems Engineering and/or US Navy Combat System background to support the Navy's next generation of combat systems. Decision has opportunities with IWS 1 (Future Surface Combatant), IWS 8 (LCS/FFGX programs), and IWS 10 (SSDS Integrated Combats Systems on CVNs/Amphibs). Candidate must have experience interacting with USN technical teams and be able to work with a large and diverse group, focused on the Systems Engineering and Ship Integration of new and upgraded capabilities for the future and in-service Navy fleet. Duties/areas of experience will include but are not limited the following:

- Must be able to participate on engineering teams and in technical design reviews, interacting directly with our US Navy customer and contributing to their success
- Must have experience in requirements analysis, functional analysis & allocation, DODAF architecture products, engineering gap analyses, trade studies preparation, engineering documentation development, ECP/SCN/ICD/IRS-IDD reviews , Test and Evaluation support
- Should possess skills in one or more of the following: radar, missiles, C4I, aviation systems, combat management systems, next generation computing infrastructures/services, virtualization, cyber principles, with a fundamental understanding of the engineering and mathematical principles therein.

- Minimum 10+ years' experience in the US Navy's Combat Systems or Combat System elements, or equivalent
- Minimum 5+ years' experience interacting directly with customers and other contractors
- Must have excellent oral and written communication skills

**We Offer:**

- Competitive salaries and benefits package
- Medical and dental insurance
- 401K
- Tuition Reimbursement
- Flexible Spending Accounts
- Short and Long Term Disability
- Vacation time
- Advancement Opportunities
